

Note: Some of the models listed in the software may not work. If so, select the model "Other" on the software and use the channel options below.

5. Use the \uparrow \downarrow keys to select channel number, and then press button **E**.

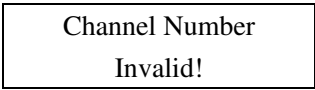

Note: When CONNECTION FAILED is appeared, check the connection once again

There are four service interval indicator types for the maintenance system—Oil Service, Inspection I Distance, Inspection I Time and Inspection II Time. Select a correct channel number before reset the distance or time. Refer to vehicle service manuals for this information, or refer to following channel list.

Model	A3	A4	A6	A8	Passat 1997-	Polo 1997-	Sharan
Function							
Oil Service	*5	*5	*5	*5	*10	*10	*5
Inspection I Distance	*6	*6	*6	*6	*11	*11	*6
Inspection I Time	*7	*7	*7	*7	*12	*12	*7
Inspection II Time		8	8	8			8

Note: 1.Display will appear Channel Number Invalid! Check to see if the Channel Number Selected is incorrect.

2.*If channel 5,6,or 7does not reset use channel 10,11,12.Some cars may not support a channel#. So try another channel#.

To Reset Oil Service light use channel 5 or 10
